# Do you need a website for your church?

iChurch

iChurch is:

- Built on WordPress
- Easy to learn and maintain
- Up-to-date web design and software
- Bespoke training
- Personal support

- Highly flexible and customisable
- Designed with beginners in mind
- A powerful framework
- A community
- Pay What You Can

How does it work?

iChurch provides you with a domain and web-hosting, and a site built on the iChurch template, all currently offered on a pay what you can basis. You have access to personal support, and the opportunity to become part of the growing network of iChurch webmasters.

Join us on the course to learn how to manage your site as you set it up. You will go away with inspiration to develop it further as well as the knowledge and tools you need to manage it.
